25-2704. REGISTRATION. (1) Each commercial feed except customer-formula feed shall be registered annually by the person who manufactures or distributes feed into or within the state of Idaho before being offered for sale, sold, or otherwise distributed in or into this state. It is the responsibility of each manufacturer or distributor of a commercial feed to ensure that those commercial feeds being distributed into or within the state of Idaho are properly registered by the manufacturer or distributor prior to distribution.

(2) The application for registration shall be submitted to the director on forms furnished by the department of agriculture, and shall be accompanied by a nonrefundable fee established by the director in rule not to exceed one hundred dollars (\$100).

(3) The application for registration shall also be accompanied by a label describing the product, unless such label has not been altered since the last registration of the product. A label shall continue in effect unless it is canceled or changed by the registrant or unless canceled by the department of agriculture pursuant to subsection (7) of this section. The department may review a label at any time during the registration year, regardless of registration status, for compliance with this act. Should the department find that a label is not in compliance with this act after registration has been issued, the department may cancel registration of the product. Provided however, that no registration shall be canceled until the registrant shall have been given opportunity to amend the label within thirty (30) days of receipt of notice of intent to refuse or cancel registration in order to comply with the requirements of this chapter, or be given notice and opportunity for a hearing pursuant to the provisions of [chapter 52, title 67](#), Idaho Code.

(4) All fees paid to the department of agriculture provided for in this section shall be paid to the state treasury, and placed in the commercial feed and fertilizer fund. Upon approval by the director a copy of the registration shall be furnished to the applicant. All registrations expire on September 30 of each year. If an application for registration renewal provided for in this section is not postmarked before November 1 of any one (1) year, a penalty of ten dollars (\$10.00) per product shall be assessed and added to the original fee and shall be paid by the applicant before the renewal registration is issued.

(5) A distributor shall not be required to register any commercial feed which is already registered under the provisions of this chapter by another person provided the commercial feed is distributed in its original package or container or, if the commercial feed is distributed in bulk, the integrity of the original product is maintained and labeled with the registrant's original label or a copy of the registrant's original label.

(6) Changes in the guarantee of either chemical or ingredient composition of a commercial feed may be permitted provided satisfactory evidence is submitted showing that such changes would not result in a lowering of the feeding value of the product for the purpose for which designed.

(7) The director is empowered to refuse registration of any application not in compliance with all provisions of this chapter and to cancel any registration when it is subsequently found to be in violation of any provision of this chapter or when the director has satisfactory evidence that the reg-

istrant has used fraudulent or deceptive practices in attempted evasion of the provisions of this chapter or rules thereunder.

Provided, however, that no registration shall be refused or canceled until the registrant shall have been given opportunity to amend their application within thirty (30) days of receipt of notice of intent to refuse or cancel registration in order to comply with the requirements of this chapter or be given notice and opportunity for a hearing pursuant to the Idaho administrative procedure act, [chapter 52, title 67](#), Idaho Code.

(8) If a product is found being offered for sale, sold, or otherwise distributed into or within Idaho prior to registration, the department is authorized to assess a penalty of twenty-five dollars (\$25.00) on each product in addition to the annual registration fee as provided in this section.

federal food, drug, and cosmetic act, as amended, and regulations adopted thereunder.

(5) If it is, or it bears or contains any color additive which is unsafe within the meaning of section 721 of the federal food, drug and cosmetic act, as amended, and regulations adopted thereunder.

(10) If it contains a drug and the methods used in or the facilities or controls used for its manufacture, processing or packaging do not conform to current good manufacturing practice regulations promulgated by the director to assure that the drug meets the requirements of this chapter as to safety. In promulgating such regulations, the director shall adopt the current good manufacturing practice regulations for type A medicated articles and type B and type C medicated feeds established under authority of the federal food, drug, and cosmetic act, as amended, unless the director determines that they are not appropriate to the conditions which exist in this state.

(11) If it contains viable noxious weed seeds or other weed seeds in amounts exceeding the limits which the director shall establish by rule.

(12) If it consists, in whole or in part, of any filthy, putrid, or decomposed substance, or if it is otherwise unfit for feed.

(13) If it has been prepared, packed, or held under unsanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

(14) If it is, in whole or in part, the product of a diseased animal or of an animal which has died otherwise than by slaughter which is unsafe within the meaning of section 402(a) (1) or (2) of the federal food, drug, and cosmetic act, as amended, and regulations adopted thereunder.

(15) If its container is composed, in whole or in part, of any poisonous or deleterious substances which may render the contents injurious to health.

(16) If it has been intentionally subjected to radiation, unless the use of the radiation was in conformity with the regulation or exemption in effect pursuant to section 402 of the federal food, drug, and cosmetic act, as amended, and regulations adopted thereunder.

(4) If it purports to be, or is represented as, a commercial feed, or if it purports to contain or is represented as containing a commercial feed ingredient, unless such commercial feed or feed ingredient conforms to the definition, if any, prescribed by rule by the director.

(5) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(6) If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the director determines to be, and by rules prescribes as necessary in order fully to inform purchasers as to its value for such uses.

Each inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified.

(2) A separate notice shall be given for each inspection, but a notice shall not be required for each entry made during the period covered by the inspection.

Unless the department grants a written extension, the owner or custodian of any commercial feed that has been issued a "stop sale, use, or removal" order shall remedy the violation within thirty (30) days.
