LEGAL NOTICES

Final Public Notice

176698

Nez Perce County has applied for Pre-Disaster Mitigation grant funding from the Federal Emergency Management Agency (FEMA) to fund the Flat Iron Road (Road # R554), South Culvert Replacement Project in Nez Perce County, Idaho; with matching funds provided by Nez Perce County. Pursuant to 44 CFR Part 9.12, FEMA gives notice under Executive Order (EO) 11988, Floodplain Management or EO 11990, Wetland Protection; since this action is located in or affects the floodplain or may affect wetlands. Initial public involvement for this project was completed on: March 24, 2021 and again on February 16, 2022 as part of the Nez Perce County Multi-Jurisdictional Hazard Mitigation Plan.

The project site is located in or affects the floodplain of Sweetwater Creek. The purpose of the project is to alleviate flood damage risks on the public roadway and culvert. The proposed action includes: Replacing the existing culvert located under Flat Iron Road with a new structure which will allow the conveyance of water to accommodate a 1% exceedance flood at this location. Alternatives considered include: permanent closure of road, culvert replacement with fish passage alternatives including differing types of structures including bridge, open bottom arch and squash CMP. The proposed action must be located in a floodplain and or effect a wetland because: protection of infrastructure and private property at this location where Flat Iron Road crosses a tributary of Sweetwater Creek. Factors considered in making this determination include: protection of infrastructure and private property from flood damage and the cost effective of the proposed solution to the problem. The proposed project action conforms to all applicable State/Local floodplain management standards and ordinances. The project will affect the floodplain and or wetland by: increasing the conveyance of Sweetwater Creek at Flat Iron Road intersection and potentially reduce the environmental and biological impacts at this crossing. Project impacts have been minimized by: designing the proposed solution to convey the 1% exceedance flood at this location, and ensuring compliance with existing floodplain development regulations.

After evaluating alternatives, including impacts and mitigation measures, it has been determined that there are no practicable alternatives to the proposed action. Without good cause shown the action will proceed no earlier than 15 days from this notice. The below responsible official will be monitoring project implementation. Additional information, including a project area map, can be obtained from the applicant contact below for Nez Perce County during normal business hours.

Public Notice: Notice of Public Hearing
Notice of Intent to Approve a Variance from Obtaining a Hazardous Waste Treatment, Storage, and Disposal Permit for
P. Kay Metal Lewiston, LLC
(EPA ID # IDR000205476) (Docket # 10HW-2304)

176730

Notice Issued: December 9, 2023
What is the purpose of this notice? The Department of Environmental Quality (DEQ) is proposing to renew a variance from obtaining a hazardous waste treatment, storage, and disposal facility permit for the P. Kay Metal Lewiston Facility. The variance is based on the application submitted by P. Kay Metal as required under Idaho's Hazardous Waste Management Act. Associated with this approval, DEQ is holding a public hearing pursuant to IDAPA 58.01.05.356.03.

What Is Proposed?
Idaho Code § 39-4424 requires that manifested waste be treated, stored, or disposed of at a permitted hazardous waste treatment, storage, and disposal facility. The variance allows P. Kay Metal to receive shipments of lead metal hazardous secondary material (HSM), as opposed to hazardous waste, for reclamation arriving from states that use a uniform hazardous waste manifest as a shipping document without obtaining a hazardous waste permit. The variance does not authorize receipt of hazardous waste, only HSM. Idaho law does not require this type of HSM to be shipped on a manifest.

Facility description: P. Kay Metal Lewiston is located on Southport Avenue, Southwest of the Nez Perce County Airport. The facility processes incoming secondary lead material and manufactures solders and lead alloys in bar or wire form. The facility stores HSM for less than 90 days and processes the metal through melting, casting, and forming before shipping offsite. Operations began in December 2017.

Where can I get more information?
In person: The variance, fact sheet, and administrative record for the facility may be reviewed at the DEQ State Office, located at 1410 North Hilton, Boise, Idaho or the DEQ Regional Office, located at 1118 F Street, Lewiston, Idaho.
Online: A copy of the fact sheet and the variance are available online via the DEQ website: <https://www.deq.idaho.gov/public-information/public-comment-opportunities/>
By phone: Call Bo Norton at (208) 373-0425 for information and to be added to or deleted from the facility mailing list.

Public Hearing:
A virtual only public hearing on the intent to approve the draft permit will be held on January 9, 2024, via Microsoft Teams. The hearing will begin at 5:30 pm PST. The link to the Microsoft Teams meeting can be found by going to the DEQ website at the link above.

Department of Environmental Quality
Contact Name: Bo Norton
Address: 1410 North Hilton Street, Boise, ID 83706
Phone: (208) 373-0425
E-mail: Bo.Norton@deq.idaho.gov
P. Kay Metal, Lewiston
Contact Name: Lori O'Harra
Address: 152 Southport Avenue, Lewiston, ID 83501
Phone: (208) 748-7163
Email: lori@pkaymetal.com
Who will be responsible for implementing this variance?
P. Kay Metal Lewiston, LLC.
Who is the issuing office?
Idaho Department of Environmental Quality, 1410 North Hilton Boise, Idaho 83706
What are DEQ's responsibilities? DEQ is the regulatory agency that helps protect and enhance Idaho's water and air quality and helps ensure proper management and disposal of hazardous and solid wastes.
What legal requirements apply? Idaho Code § 39-4409(7) allows for DEQ to issue a variance from the hazardous waste permitting requirement.

District Manager Assistant

The Lewiston Tribune has an immediate opening for a District Manager Assistant in our LC Valley district based in Lewiston. This position (32-40 hrs per week) supports the District Manager team for circulation growth and superior customer service. Compensation is based upon your excellent work history.

Working as part of the management team, the District Manager Assistant will work an early morning schedule at our offices or in the field performing some or all of the following tasks:

- Assisting with the delivery of newspapers.
- Checking subscriber addresses that have had previous delivery issues.
- Organizing and distributing daily paperwork.
- Occasional distribution of alternative print products
- Operating a computer to print reports.
- Communication and follow up with managers.

Position Requirements:

- Good time management and communication skills.
- Management of multiple tasks on a daily basis.
- Basic computer skills.
- Valid driver's license, reliable insured transportation.

Interested parties should email their resume to Mark Bryan @ mbryan@lmtribune.com.

The Lewiston Tribune offers a very competitive compensation package and is part of the Tribune Publishing Company family of newspapers. The Lewiston Tribune is an Equal Opportunity Employer and operates a drug-free work environment.
