

TITLE 39  
HEALTH AND SAFETY

CHAPTER 30  
RADIATION AND NUCLEAR MATERIAL

39-3020. WESTERN INTERSTATE NUCLEAR COMPACT. The Western Interstate Nuclear Compact is hereby enacted into law and entered into by the state of Idaho as a party, and is in full force and effect between the state and any other state joining therein in accordance with the terms of the compact, which compact is substantially as follows:

ARTICLE I. POLICY AND PURPOSE

The party states recognize that the proper employment of scientific and technological discoveries and advances in nuclear and related fields and direct and collateral application and adaptation of processes and techniques developed in connection therewith, properly correlated with the other resources of the region, can assist substantially in the industrial progress of the West and the further development of the economy of the region. They also recognize that optimum benefit from nuclear and related scientific or technological resources, facilities and skills requires systematic encouragement, guidance, assistance, and promotion from the party states on a cooperative basis. It is the policy of the party states to undertake such cooperation on a continuing basis. It is the purpose of this compact to provide the instruments and framework for such a cooperative effort in nuclear and related fields, to enhance the economy of the West and contribute to the individual and community well-being of the region's people.

ARTICLE II. THE BOARD

(a) There is hereby created an agency of the party states to be known as the "Western Interstate Nuclear Board" (hereinafter called the Board). The Board shall be composed of one member from each party state designated or appointed in accordance with the law of the state which he represents and serving and subject to removal in accordance with such law. Any member of the Board may provide for the discharge of his duties and the performance of his functions thereon (either for the duration of his membership or for any lesser period of time) by a deputy or assistant, if the laws of his state make specific provisions therefor. The federal government may be represented without vote if provision is made by federal law for such representation.

(b) The Board members of the party states shall each be entitled to one vote on the Board. No action of the Board shall be binding unless taken at a meeting at which a majority of all members representing the party states are present and unless a majority of the total number of votes on the Board are cast in favor thereof.

(c) The Board shall have a seal.

(d) The Board shall elect annually, from among its members, a chairman, a vice chairman, and a treasurer. The Board shall appoint and fix the compensation of an Executive Director who shall serve at its pleasure and who shall also act as Secretary, and who, together with the Treasurer, and such other personnel as the Board may direct, shall be bonded in such amounts as the Board may require.

(e) The Executive Director, with the approval of the Board, shall appoint and remove or discharge such personnel as may be necessary for the performance of the Board's functions irrespective of the civil service, personnel or other merit system laws of any of the party states.

(f) The Board may establish and maintain, independently or in conjunction with any one or more of the party states, or its institutions or subdivisions, a suitable retirement system for its full-time employees. Employees of the Board shall be eligible for social security coverage in respect of old age and survivors insurance provided that the Board takes such steps as may be necessary pursuant to federal law to participate in such program of insurance as a governmental agency or unit. The Board may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(g) The Board may borrow, accept, or contract for the services of personnel from any state or the United States or any subdivision or agency thereof, from any interstate agency, or from any institution, person, firm or corporation.

(h) The Board may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services (conditional or otherwise) from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, person, firm, or corporation, and may receive, utilize, and dispose of the same. The nature, amount and conditions, if any, attendant upon any donation or grant accepted pursuant to this paragraph or upon any borrowing pursuant to paragraph (g) of this Article, together with the identity of the donor, grantor or lender, shall be detailed in the annual report of the Board.

(i) The Board may establish and maintain such facilities as may be necessary for the transacting of its business. The Board may acquire, hold, and convey real and personal property and any interest therein.

(j) The Board shall adopt bylaws, rules, and regulations for the conduct of its business, and shall have the power to amend and rescind these bylaws, rules, and regulations. The Board shall publish its bylaws, rules, and regulations in convenient form and shall file a copy thereof, and shall also file a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

(k) The Board annually shall make to the governor of each party state, a report covering the activities of the Board for the preceding year, and embodying such recommendations as may have been adopted by the Board, which report shall be transmitted to the legislature of said state. The Board may issue such additional reports as it may deem desirable.

### ARTICLE III. FINANCES

(a) The Board shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that jurisdiction for presentation to the legislature thereof.

(b) Each of the Board's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. Each of the Board's requests for appropriations pursuant to a budget of estimated expenditures shall be apportioned equally among the party states. Subject to appropriation by their respective legislatures, the Board shall be provided with such funds by each of the party states as are necessary to provide the means of establishing and maintaining facilities, a staff of personnel, and such activities as may be necessary to fulfill the powers and duties imposed upon and entrusted to the Board.

(c) The Board may meet any of its obligations in whole or in part with funds available to it under Article II(h) of this compact, provided that the Board takes specific action setting aside such funds prior to the incurring of any obligation to be met in whole or in part in this manner. Except where the Board makes use of funds available to it under Article II(h) hereof, the Board shall not incur any obligation prior to the allotment of funds by the party jurisdictions adequate to meet the same.

(d) Any expenses and any other costs for each member of the Board in attending Board meetings shall be met by the Board.

(e) The Board shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Board shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Board shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become a part of the annual report of the Board.

(f) The Accounts of the Board shall be open at any reasonable time for inspection to persons authorized by the Board, and duly designated representatives of governments contributing to the Board's support.

#### ARTICLE IV. ADVISORY COMMITTEES

The Board may establish such advisory and technical committees as it may deem necessary, membership on which may include but not be limited to private citizens, expert and lay personnel, representatives of industry, labor, commerce, agriculture, civic associations, medicine, education, voluntary health agencies, and officials of local, State and Federal Government, and may cooperate with and use the services of any such committees and the organizations which they represent in furthering any of its activities under this compact.

#### ARTICLE V. POWERS

The Board shall have power to--

(a) Encourage and promote cooperation among the party states in the development and utilization of nuclear and related technologies and their application to industry and other fields.

(b) Ascertain and analyze on a continuing basis the position of the West with respect to the employment in industry of nuclear and related scientific findings and technologies.

(c) Encourage the development and use of scientific advances and discoveries in nuclear facilities, energy, materials, products, by-products, and all other appropriate adaptations of scientific and technological advances and discoveries.

(d) Collect, correlate, and disseminate information relating to the peaceful uses of nuclear energy, materials, and products, and other products and processes resulting from the application of related science and technology.

(e) Encourage the development and use of nuclear energy, facilities, installations, and products as part of a balanced economy.

(f) Conduct, or cooperate in conducting, programs of training for state and local personnel engaged in any aspects of:

1. Nuclear industry, medicine, or education, or the promotion or regulation thereof.

2. Applying nuclear scientific advances or discoveries, and any industrial commercial or other processes resulting therefrom.

3. The formulation or administration of measures designed to promote safety in any matter related to the development, use or disposal of nuclear energy, materials, products, by-products, installations, or wastes, or to safety in the production, use and disposal of any other substances peculiarly related thereto.

(g) Organize and conduct, or assist and cooperate in organizing and conducting, demonstrations or research in any of the scientific, technological or industrial fields to which this compact relates.

(h) Undertake such nonregulatory functions with respect to non-nuclear sources of radiation as may promote the economic development and general welfare of the West.

(i) Study industrial, health, safety, and other standards, laws, codes, rules, regulations, and administrative practices in or related to nuclear fields.

(j) Recommend such changes in, or amendments or additions to the laws, codes, rules, regulations, administrative procedures and practices or local laws or ordinances of the party states of their subdivisions in nuclear and related fields, as in its judgment may be appropriate. Any such recommendations shall be made through the appropriate state agency, with due consideration of the desirability of uniformity but shall also give appropriate weight to any special circumstances which may justify variations to meet local conditions.

(k) Consider and make recommendations designed to facilitate the transportation of nuclear equipment, materials, products, by-products, wastes, and any other nuclear or related substances, in such manner and under such conditions as will make their availability or disposal practicable on an economic and efficient basis.

(l) Consider and make recommendations with respect to the assumption of and protection against liability actually or potentially incurred in any phase of operations in nuclear and related fields.

(m) Advise and consult with the federal government concerning the common position of the party states or assist party states with regard to individual problems where appropriate in respect to nuclear and related fields.

(n) Cooperate with the Atomic Energy Commission, the National Aeronautics and Space Administration, the Office of Science and Technology, or any agencies successor thereto, any other officer or agency of the United States, and any other governmental unit or agency or officer thereof, and with any private persons or agencies in any of the fields of its interest.

(o) Act as licensee, contractor or sub-contractor of the United States Government or any party state with respect to the conduct of any research activity requiring such license or contract and operate such research facility or undertake any program pursuant thereto, provided that this power shall be exercised only in connection with the implementation of one or more other powers conferred upon the Board by this compact.

(p) Prepare, publish and distribute (with or without charge) such reports, bulletins, newsletters or other materials as it deems appropriate.

(q) Ascertain from time to time such methods, practices, circumstances, and conditions as may bring about the prevention and control of nuclear incidents in the area comprising the party states, to coordinate the nuclear incident prevention and control plans and the work relating thereto of the appropriate agencies of the party states and to facilitate the rendering of aid by the party states to each other in coping with nuclear incidents.

The Board may formulate and, in accordance with need from time to time, revise a regional plan or regional plans for coping with nuclear incidents within the territory of the party states as a whole or within any subregion or subregions of the geographic area covered by this compact.

Any nuclear incident plan in force pursuant to this paragraph shall designate the official or agency in each party state covered by the plan who shall coordinate requests for aid pursuant to Article VI of this compact and the furnishing of aid in response thereto.

Unless the party states concerned expressly otherwise agree, the Board shall not administer the summoning and dispatching of aid, but this function shall be undertaken directly by the designated agencies and officers of the party states.

However, the plan or plans of the Board in force pursuant to this paragraph shall provide for reports to the Board concerning the occurrence of nuclear incidents and the requests for aid on account thereof, together with summaries of the actual working and effectiveness of mutual aid in particular instances.

From time to time, the Board shall analyze the information gathered from reports of aid pursuant to Article VI and such other instances of mutual aid as may have come to its attention, so that experience in the rendering of such aid may be available.

(r) Prepare, maintain, and implement a regional plan or regional plans for carrying out the duties, powers, or functions conferred upon the Board by this compact.

(s) Undertake responsibilities imposed or necessarily involved with regional participation pursuant to such cooperative programs of the federal government as are useful in connection with the fields covered by this compact.

## ARTICLE VI. MUTUAL AID

(a) Whenever a party state, or any state or local governmental authorities therein, request aid from any other party state pursuant to this compact in coping with a nuclear incident, it shall be the duty of the requested state to render all possible aid to the requesting state which is consonant with the maintenance of protection of its own people.

(b) Whenever the officers or employees of any party state are rendering outside aid pursuant to the request of another party state under this compact, the officers or employees of such state shall, under the direction of the authorities of the state to which they are rendering aid, have the same powers, duties, rights, privileges and immunities as comparable officers and employees of the state to which they are rendering aid.

(c) No party state or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on their part while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith.

(d) All liability that may arise either under the laws of the requesting state or under the laws of the aiding state or under the laws of a third state on account of or in connection with a request for aid, shall be assumed and borne by the requesting state.

(e) Any party state rendering outside aid pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries and maintenance of officers, employees and equipment incurred in connection with such requests: provided that nothing herein contained shall prevent any assisting party state from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such services to the receiving party state without charge or cost.

(f) Each party state shall provide for the payment of compensation and death benefits to injured officers and employees and the representatives of deceased officers and employees in case officers or employees sustain injuries or death while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within the state by or in which the officer or employee was regularly employed.

## ARTICLE VII. SUPPLEMENTARY AGREEMENTS

(a) To the extent that the Board has not undertaken an activity or project which would be within its power under the provisions of Article V of this compact, any two or more of the party states (acting by their duly constituted administrative officials) may enter into supplementary agreements for the undertaking and continuance of such an activity or project. Any such agreement shall specify the purpose and purposes; its duration and the procedure for termination thereof or withdrawal therefrom; the method of financing and allocating the costs of the activity or project; and such other matters as may be necessary or appropriate.

No such supplementary agreement entered into pursuant to this article shall become effective prior to its submission to and approval by the Board. The Board shall give such approval unless it finds that the supplementary agreement or activity or project contemplated thereby is inconsistent with the provisions of this compact or a program or activity conducted by or participated in by the Board.

(b) Unless all of the party states participate in a supplementary agreement, any cost or costs thereof shall be borne separately by the states party thereto. However, the Board may administer or otherwise assist in the operation of any supplementary agreement.

(c) No party to a supplementary agreement entered into pursuant to this article shall be relieved thereby of any obligation or duty assumed by said party state under or pursuant to this compact, except that timely and proper performance of such obligation or duty by means of the supplementary agreement may be offered as performance pursuant to the compact.

(d) The provisions to this Article shall apply to supplementary agreements and activities thereunder, but shall not be construed to repeal or impair any authority which officers or agencies of party states may have pursuant to other laws to undertake cooperative arrangements or projects.

#### ARTICLE VIII. OTHER LAWS AND REGULATIONS

Nothing in this compact shall be construed to--

(a) Permit or require any person or other entity to avoid or refuse compliance with any law, rule, regulation, order or ordinance of a party state or subdivision thereof now or hereafter made, enacted or in force.

(b) Limit, diminish, or otherwise impair jurisdiction exercised by the Atomic Energy Commission, any agency successor thereto, or any other federal department, agency or officer pursuant to and in conformity with any valid and operative act of Congress; nor limit, diminish, affect, or otherwise impair jurisdiction exercised by any officer or agency of a party state, except to the extent that the provisions of this compact may provide therefor.

(c) Alter the relations between and the respective internal responsibilities of the government of a party state and its subdivisions.

(d) Permit or authorize the Board to own or operate any facility, reactor, or installation for industrial or commercial purposes.

#### ARTICLE IX. ELIGIBLE PARTIES, ENTRY INTO

##### FORCE AND WITHDRAWAL

(a) Any or all of the states of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming shall be eligible to become party to this compact.

(b) As to any eligible party state, this compact shall become effective when its legislature shall have enacted the same into law: provided, that it shall not become initially effective until enacted into law by five states.

(c) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until two years after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

(d) Guam and American Samoa, or either of them may participate in the compact to such extent as may be mutually agreed by the Board and the duly constituted authorities of Guam or American Samoa, as the case may be. However, such participation shall not include the furnishing or receipt of mutual aid pursuant to Article VI, unless that Article has been enacted or otherwise adopted so as to have the full force and effect of law in the jurisdiction affected. Neither Guam nor American Samoa shall be entitled to voting participation on the Board, unless it has become a full party to the compact.

#### ARTICLE X. SEVERABILITY AND CONSTRUCTION

The provisions of this compact and of any supplementary agreement entered into hereunder shall be severable and if any phrase, clause, sentence or provision of this compact or such supplementary agreement is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact or such supplementary agreement and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact or any supplementary agreement entered into hereunder shall be held contrary to the constitution of any state participating therein, the compact or such supplementary agreement shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters. The provisions of this compact and of any supplementary agreement entered into pursuant thereto shall be liberally construed to effectuate the purposes thereof.

[39-3020, added 1969, ch. 34, sec. 1, p. 61.]

39-3021. REPRESENTATIVE ON WESTERN INTERSTATE NUCLEAR BOARD. The member of the western interstate nuclear board representing the state of Idaho shall be appointed by the governor and serve at his pleasure.

[39-3021, added 1969, ch. 34, sec. 2, p. 61.]

39-3022. ALTERNATE. The alternate required pursuant to article II(a) of the compact shall be designated by the western interstate nuclear board member representing the state of Idaho, and shall serve at his pleasure in an order specified by him.

[39-3022, added 1969, ch. 34, sec. 3, p. 61.]

39-3023. COPIES OF BY-LAWS TO BE FILED WITH STATE OFFICERS. Pursuant to article II(j) of the compact, the western interstate nuclear board shall file copies of its by-laws and any amendments thereto with the secretary of

state and the executive director of the office of nuclear energy development.

[39-3023, added 1969, ch. 34, sec. 4, p. 61.]

39-3024. PERSONS DISPATCHED TO ANOTHER STATE. The laws of the state of Idaho and any benefits payable thereunder shall apply and be payable to any persons dispatched to another state pursuant to article VI of the compact. If the aiding personnel are officers or employees of the state of Idaho or any subdivisions thereof, they shall be entitled to the same workmen's compensation or other benefits in case of injury or death to which they would have been entitled if injured or killed while engaged in coping with a nuclear incident in their jurisdictions of regular employment.

[39-3024, added 1969, ch. 34, sec. 5, p. 61.]

39-3025. NORTHWEST INTERSTATE COMPACT ON LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT. The Northwest Interstate Compact on Low-level Radioactive Waste Management is hereby enacted into law and entered into by the state of Idaho as a party, and is in full force and effect between the state and any other state joining therein in accordance with the terms of the compact, which compact is substantially as follows:

#### NORTHWEST INTERSTATE COMPACT ON

#### LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

#### ARTICLE I -- Policy and Purpose

The party states recognize that low-level radioactive wastes are generated by essential activities and services that benefit the citizens of the states. It is further recognized that the protection of the health and safety of the citizens of the party states and the most economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is the policy of the party states to undertake the necessary cooperation to protect the health and safety of the citizens of the party states and to provide for the most economical management of low-level radioactive wastes on a continuing basis. It is the purpose of this compact to provide the means for such a cooperative effort among the party states so that the protection of the citizens of the states and the maintenance of the viability of the states' economies will be enhanced while sharing the responsibilities of radioactive low-level waste management.

#### ARTICLE II -- Definitions

As used in this compact:

(1) "Facility" means any site, location, structure, or property used or to be used for the storage, treatment, or disposal of low-level waste, excluding federal waste facilities;

(2) "Low-level waste" means waste material which contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentra-

tions or quantities which exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than ten (10) nanocuries of transuranic contaminants per gram of material, nor spent reactor fuel, nor material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations;

(3) "Generator" means any person, partnership, association, corporation, or any other entity whatsoever which, as a part of its activities, produces low-level radioactive waste;

(4) "Host state" means a state in which a facility is located.

### ARTICLE III -- Regulatory Practices

Each party state hereby agrees to adopt practices which will require low-level waste shipments originating within its borders and destined for a facility within another party state to conform to the applicable packaging and transportation requirements and regulations of the host state. Such practices shall include:

(1) Maintaining an inventory of all generators within the state that have shipped or expect to ship low-level waste to facilities in another party state;

(2) Periodic unannounced inspection of the premises of such generators and the waste management activities thereon;

(3) Authorization of the containers in which such waste may be shipped, and a requirement that generators use only that type of container authorized by the state;

(4) Assurance that inspections of the carriers which transport such waste are conducted by proper authorities, and appropriate enforcement action taken for violations;

(5) After receiving notification from a host state that a generator within the party state is in violation of applicable packaging or transportation standards, the party state will take appropriate action to assure that such violations do not recur. Such action may include inspection of every individual low-level waste shipment by that generator.

Each party state may impose fees upon generators and shippers to recover the cost of the inspections and other practices under this article. Nothing in this article shall be construed to limit any party state's authority to impose additional or more stringent standards on generators or carriers than those required under this article.

### ARTICLE IV -- Regional Facilities

(1) Facilities located in any party state, other than facilities established or maintained by individual low-level waste generators for the management of their own low-level waste, shall accept low-level waste generated in any party state if such waste has been packaged and transported according to applicable laws and regulations.

(2) No facility located in any party state may accept low-level waste generated outside of the region comprised of the party states, except as provided in article V.

(3) Until such time as paragraph (2) of article IV takes effect, facilities located in any party state may accept low-level waste generated outside of any of the party states only if such waste is accompanied by a certificate

of compliance issued by an official of the state in which such waste shipment originated. Such certificate shall be in such form as may be required by the host state, and shall contain at least the following:

- (A) The generator's name and address;
- (B) A description of the contents of the low-level waste container;
- (C) A statement that the low-level waste being shipped has been inspected by the official who issued the certificate or by his agent or by a representative of the United States nuclear regulatory commission, and found to have been packaged in compliance with applicable federal regulations and such additional requirements as may be imposed by the host state;
- (D) A binding agreement by the state of origin to reimburse any party state for any liability or expense incurred as a result of an accidental release of such waste during shipment or after such waste reaches the facility.

(4) Each party state shall cooperate with the other party states in determining the appropriate site of any facility that might be required within the region comprised of the party states, in order to maximize public health and safety while minimizing the use of any one (1) party state as the host of such facilities on a permanent basis. Each party state further agrees that decisions regarding low-level waste management facilities in their region will be reached through a good faith process which takes into account the burdens borne by each of the party states as well as the benefits each has received.

(5) The party states recognize that the issue of hazardous chemical waste management is similar in many respects to that of low-level waste management. Therefore, in consideration of the state of Washington allowing access to its low-level waste disposal facility by generators in other party states, party states such as Oregon and Idaho which host hazardous chemical waste disposal facilities will allow access to such facilities by generators within other party states. Nothing in this compact shall be construed to prevent any party state from limiting the nature and type of hazardous chemical or low-level wastes to be accepted at facilities within its borders or from ordering the closure of such facilities, so long as such action by a host state is applied equally to all generators within the region comprised of the party states.

(6) Any host state may establish a schedule of fees and requirements related to its facility, to assure that closure, perpetual care, and maintenance and contingency requirements are met, including adequate bonding.

#### ARTICLE V -- Northwest Low-Level Waste Compact Committee

The governor of each party state shall designate one (1) official of that state as the person responsible for administration of this compact. The officials so designated shall together comprise the northwest low-level waste compact committee. The committee shall meet as required to consider matters arising under this compact. The parties shall inform the committee of existing regulations concerning low-level waste management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations. Notwithstanding any provision of article IV to the contrary, the committee may enter into arrangements with states, provinces, individual generators, or regional compact entities outside the region comprised of the party states

for access to facilities on such terms and conditions as the committee may deem appropriate. However, it shall require a two-thirds (2/3) vote of all such members, including the affirmative vote of the member of any party state in which a facility affected by such arrangement is located, for the committee to enter into such arrangement.

#### ARTICLE VI -- Eligible Parties and Effective Date

(1) Each of the following states is eligible to become a party to this compact: Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, and Wyoming. As to any eligible party, this compact shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two (2) states. Any party state may withdraw from this compact by enacting a statute repealing its approval.

(2) After the compact has initially taken effect pursuant to paragraph (1) of this article, any eligible party state may become a party to this compact by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1983, whichever occurs first, unless the compact has by then been enacted as a statute by that state.

(3) Paragraph (2) of article IV of this compact shall take effect on July 1, 1983, if consent is given by congress. As provided in public law 96-573, congress may withdraw its consent to the compact after every five (5) year period.

#### ARTICLE VII -- Severability

If any provision of this compact, or its application to any person or circumstance, is held to be invalid, all other provisions of this compact, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this compact are severable.

[39-3025, added 1981, ch. 345, sec. 1, p. 714.]

39-3026. IMPLEMENTATION OF ARTICLE III. The state department of environmental quality shall adopt the practices and may impose the fees authorized under article III of the compact, except that the Idaho state police and the public utilities commission shall retain their existing enforcement and inspection authority relating to carriers. The board of environmental quality shall adopt such rules as may be necessary to enable the department of environmental quality to carry out the provisions of this section.

[39-3026, added 1981, ch. 345, sec. 2, p. 718; am. 2000, ch. 469, sec. 95, p. 1548; am. 2001, ch. 103, sec. 29, p. 273; am. 2007, ch. 83, sec. 5, p. 226.]

39-3027. LAW PROHIBITING USE OF NUCLEAR ENERGY FOR GENERATION OF ELECTRICITY PROHIBITED UNLESS SUBMITTED TO ELECTORATE. No law shall be enacted by the State of Idaho to prohibit the use of nuclear energy for the generation of electricity, unless the proposed measure shall have first been submitted to the electorate at the next earliest general election. The results of such

submission of the question to the electorate shall be advisory in nature, and shall not prevent the legislature from acting in any manner on the measure.

[39-3027, added 1982, Init. Measure 3.]

39-3028. DISPOSAL OF URANIUM MILL TAILINGS. (1) Legislative declaration. The legislature hereby finds and declares that the existence of uranium mill tailings at active and inactive mill operations could pose a potential radiation health hazard. This section is enacted to protect the public health, safety, and welfare by authorizing the department of environmental quality to cooperate with the federal government in providing for the stabilization, disposal, and control of such tailings in a safe and environmentally sound manner.

(2) Terms defined. For the purposes of this section, the terms "processing site" and "residual radioactive material" shall have the meanings specified in section 101(6) and (7), respectively, of public law 95-604, 42 U.S.C., section 7901, et seq., as from time to time amended.

(3) Authorization to participate. The department of environmental quality is hereby authorized to participate in federal implementation of the "Uranium Mill Tailings Radiation Control Act of 1978" (P.L. 95-604), and for such purpose the agency may:

(a) Enter into cooperative agreements with the secretary of energy to perform remedial actions at processing sites designated by the secretary;

(b) Obtain written consent from the record owner of a designated processing site to perform remedial actions at such site;

(c) Provide for reimbursement for the actual cost of any remedial action in accordance with the terms of public law 95-604;

(d) Acquire and dispose of any designated processing site, including any interest in such site, and any site to be used for the permanent disposition and stabilization of residual radioactive materials;

(e) Participate in the selection and performance of remedial actions.

(4) Financial participation.

(a) The legislature accepts in principle the provisions of section 107(a) of public law 95-604 which requires the state to pay ten percent (10%) of the actual cost of any remedial action and administrative costs from nonfederal moneys, reserving, however, the right and authority to limit through yearly appropriations the amount of state moneys committed to such costs.

(b) The state of Idaho may receive all or a share of the net profits derived from the recovery of minerals from residual radioactive materials at any designated processing site within the state in accordance with the provisions of section 108(b) of public law 95-604.

[39-3028, added 1984, ch. 257, sec. 1, p. 617; am. 2007, ch. 83, sec. 6, p. 226.]
