An existing permanent building which was used for the retail sale of fireworks in 1996 may continue to be used for that purpose if the building meets or exceeds the standards for temporary buildings established by this section and is operated, insofar as it is applicable, as provided by this section. (6) "No smoking within 25 feet" signs shall be prominently displayed on all four (4) sides of the stand. Smoking shall not be permitted inside the stand.

(7) A stand shall not be erected before May 5 nor remain up after July 20 for the first sales period; nor shall it be erected before December 7 or remain up after January 16 for the second sales period. The authority having jurisdiction shall be notified of the address or location of all short-term storage facilities when fireworks will not be stored in a temporary fireworks stand. If the short-term storage facility is not within the boundaries of the jurisdiction having issued the retail sales permit the permittee shall notify the authority having jurisdiction where the storage is to take place.

(2) Short-term storage is allowed in any of the following, provided it is locked or otherwise secured: a temporary fireworks stand, truck, trailer, or other vehicle. A truck, trailer or other vehicle used for short-term storage must remain at least twenty-five (25) feet from the stand during any time the stand is open for business, but may abut the stand when it is closed. A truck, trailer or vehicle used for short-term storage must be at least twenty-five (25) feet from any other inhabited building. Short-term storage may occur in a locked or secured shed, garage, barn or other building or storage container which is detached from an inhabited building and contains no open flames, including heating and lighting sources. The authority having jurisdiction may, in its discretion, allow short-term storage to occur in an attached garage with a one (1) hour fire wall separating the garage from any inhabited area.
