

TITLE 39  
HEALTH AND SAFETY

CHAPTER 67  
REGIONAL AIR QUALITY COUNCIL ACT

39-6701. LEGISLATIVE STATEMENT OF FINDINGS AND INTENT. (1) The legislature finds that the air quality in certain regions of the state is threatened with deterioration. This deterioration may endanger the breathability, economic potential, public health, natural beauty, recreational use and livability in various regions of the state. It is the intent of the legislature in establishing this chapter to preserve and protect the air quality of the entire state.

(2) The legislature declares that it is necessary to embark upon a program of air quality protection for future generations of Idahoans. This chapter allows for the creation of regional air quality councils as necessary to protect, preserve and, where necessary, improve the quality of air in a specified geographical area while accommodating private, public and commercial activities. The plan developed by an air quality council as set forth in this chapter shall require a working partnership of state and local agencies of government as well as the private sector.

(1) The department of environmental quality shall annually review and determine whether the three (3) year design value equal to or above eighty-five percent (85%) of a national ambient air quality standard, as defined by the United States environmental protection agency, is met in certain regions of the state.

(2) If the three (3) year design value is equal to or above eighty-five percent (85%) of a national ambient air quality standard, the department of environmental quality shall evaluate potential further air quality deterioration and determine whether to make a recommendation to the legislature that a regional air quality advisory committee should be formed and devoted to evaluating air pollution reduction actions.

[39-6702, added 2022, ch. 110, sec. 5, p. 365.]

(2) Each regional air quality council shall be independently created by the legislature pursuant to subsection (1) of this section and, upon creation, shall be located within the Idaho department of environmental quality.

(3) The governor shall appoint members to regional air quality councils in accordance with the provisions of section [39-6708](#), Idaho Code.

(4) It shall be the responsibility of any council established under this chapter to develop a plan and carry out the duties established by this chapter. The council shall be assisted in its work by the department of environmental quality and other appropriate state and local agencies as needed.

39-6704. ESTABLISHMENT OF A CITIZENS COMMITTEE. Citizens performing volunteer services in support of the work of a council shall automatically be members of the citizens committee. Members of the citizens committee may meet with the council with full right to attend all proceedings and discussions and submit comments, except that citizen committee members shall not be voting members.
