

Recordation Fraud

Stop Foreclosure by finding the fraud in the Land Records. Fraudulent Recordations are being used in Land Records Offices everywhere to facilitate Foreclosure Fraud, and Mortgage Servicing Fraud.

- this document is not a substitute for the advice of an attorney –

The big banks and Wall Street have screwed up the economy and a small group of people has uncovered one of their biggest secrets. Although the facts are simple, there are many, and their use and misuse are very complex. The purpose is to cheat, steal and deceive the law abiding and innocent at every possible crossroad.

It all starts at the most basic and sacred of all levels, the land records office. This is where both residential and commercial mortgages are exploited and terminally compromised for the sake of speed and trading convenience, mostly through electronic means. Profits to the banks are tremendously increased through hidden fees and liability is passed on to the unsuspecting investors.

The purpose of this composition is to expose the smallest but most important part of the scam, for if they were to follow the applicable laws for each county and state, this problem could not exist. It gets very involved and at many levels including securities fraud, jeopardizing approximately 50% of all the long-term retirement securities on the market today.

Examples presented here are from Tarrant County and Dallas County but can be applied to all counties and all states with minor adaptations to suit local applicable laws.

Foreclosures are at an all time high as a result of the economy, the economy they created, and surprisingly enough, the following information when used correctly can stop most all foreclosures, residential or commercial, and essentially take those properties back free and clear from the mortgage companies. This is real and it is being done successfully all over the union. Key phrase here; “Produce the Note”, as in 95% of all cases, the original paper blue ink signed promissory note has been scanned into electronic form and then shredded. They have repeatedly and consistently broken the law in order to increase their profits by reducing their overhead and liability.

The alarm here is there are no checks and balances to catch these unlawful filings with the records office and in that case they become and unwilling, unknowing party in covering up the financial institutions fraud.

Once the Original note is converted from paper to an electronic graphic image or copy, the evidence of the debt, its negotiability, holder status and the right to enforce is lost forever.

Actual oral argument to judge, some adlib not included ...

tell it like it is

i entered into an agreement in good faith and fully expected that the people i made that agreement with would do likewise.

the plaintiffs who brought me here today are not the same people that i made that agreement with and not only have they not acted in good faith concerning this matter, but they have deliberately and repeatedly acted in bad faith.

in order to save time, i will only briefly refer to my submitted response to notice of hearing and my exhibits and assume that everybody has read them.

in my pleadings i have made references to many violations of many different laws and rules by the plaintiffs that are important in order to understand the plaintiffs true character and standards.

now - i will try to explain it better, if you will allow me...

basically, these people have not just made a simple error, they have repeatedly conspired to commit fraud upon myself, tarrant county land records, this court and etc.

the texas constitution article 16 section 50 is the law that the plaintiffs are citing to bring me before you today.

the rules under this section along with the texas rules of civil procedure 735 and 736, are clearly defined.

in order to qualify for these special rules the plaintiffs as well as the defendant must meet the requirements defined within section 50 and rules 735 and 736.

the plaintiffs cite specifically "applicant seeks a court order as required by tex. const. art. XVI § 50(a)(6)(D) ... to allow it to sell at public auction ...".

[[- "THE TEXAS CONSTITUTION ARTICLE 16." - "GENERAL PROVISIONS" - "Sec. 50. HOMESTEAD; PROTECTION FROM FORCED SALE; MORTGAGES, TRUST DEEDS, AND LIENS." -- " (a) The homestead of a family, or of a single adult person, shall be, and is hereby protected from forced sale, for the payment of all debts except for:" -- "(6) an extension of credit that:" -- "(D) is secured by a lien that may be foreclosed upon only by a court order;" -]]

the first fatal flaw here is the fact that there is no valid security lien!

the second fatal flaw here is that the plaintiffs know it and decided to proceed anyway!

the plaintiffs in an attempt to deceive created a fraudulent notice of assignment and filed it with the tarrant county land records office.

this defective security lien was created by actors claiming to be representing an entity named in an invalid limited power of attorney also filed in the tarrant county land records office.

this invalid power of attorney was filed as assignment # D207376789 recorded in Tarrant County on October 22, 2007 (exhibit K).

an agent of an agent cannot create a power of attorney for the benefit of the owners.

the entity responsible for filing it is argent mortgage co. - they are the originator of the security instrument that was filed as the Deed of Trust in Tarrant County records office # D206085073 on March, 26, 2006.

only a lawful trustee can create a power of attorney with the agent of the agent.

the plaintiffs now claim that the promissory note is part of a trust known as "Argent securities Inc. 2006-W4. Asset-Backed Pass-Through Certificates, Series 2006-W4".

this trust's pooling and servicing agreement clearly defines its official "cut off date" as to being April 1, 2006.

on or about April 1, 2006, argent mortgage co. gave up any and all rights, (owner - holder - holder in due course), to the alleged debt obligation in question in order to create this trust.

Argent securities Inc. 2006-W4. Asset-Backed Pass-Through Certificates, Series 2006-W4 then failed to go down to the tarrant county land records office to file that transfer.

that "error" broke the chain of assignments.

no more security and we now have separation of the note from the mortgage, violation of the pooling and servicing agreement, violation of federal and local laws etc.

argent mortgage co. had no rights at all when the limited power of attorney # D207376789 was filed on October 22, 2007, one and a half years after the creation of the trust.

which came first, the chicken or the egg?

this limited power of attorney fails to transfer power to anybody, whether they are truly a vice president or not, and the notice of assignment #D209045468 recorded in Tarrant County on February 19, 2009 from Argent Mortgage to Deutsche Bank National Trust Company as Trustee for Argent securities Inc. Asset-Backed Pass-Through Certificates, Series 2006-W4 (exhibit O) uses that fraudulent limited power of attorney along with new fraudulent actors in an attempt to deceive first by filing those creative inventions in the land records office and then by hiding them from this court as the plaintiffs knew all along that they were fakes and not mistakes.

this notice of assignment was filed two years and ten months, almost three years after argent mortgage co. severed their connection to the alleged debt in question by creating and selling that trust.

my investment in a title search (exhibit C) shows that no where are there any other notice of assignments from or to any one that would have an interest in this complicated scheme.

if the trust exists and the alleged debt obligation is being held by Deutsche Bank National Trust Company as Trustee in trust for the benefit of the Certificateholders for Argent securities Inc. 2006-W4. Asset-Backed Pass-Through Certificates, Series 2006-W4 as claimed, then there should be a paper trail of appropriately filed notice of assignments.

the plaintiffs simply have no standing.

they tried to defraud me directly and are now trying to fraudulently manipulate the power of this honorable court.

because there are two indisputable frauds already filed in the land records office, and deliberately being hidden from the court by the plaintiffs, any thing else presented to this court by the plaintiffs should be automatically considered "just another fraud" and automatically ruled as inadmissible.

the documents that the plaintiffs have introduced to this court are lacking key elements that would prove their authenticity anyway.

such as their submitted representations of the deed of trust, and the promissory note, obviously reduced down from their original 14 inch size along with redacted loan numbers.

the only document that they have entered into evidence with a sworn affidavit, known as "Business Record Affidavit" stating that the attached records "are the original or an exact copy of the original" is really nothing more than a manipulated

computer printout of data from two separate business entities alleging a payment history.

if this were original, or even a copy of original, there would be two separate documents, one from each entity, and a document or two explaining their relationship toward one another.

proper identification of the parties involved would be a priority issue and things like ambiguity in an entities name would be eliminated by not using an acronym instead of a full and proper company name, the loan number would not be redacted, the social security number would not be redacted and the invoice number would not be redacted.

the plaintiffs have created a new loan number, and use it when referring to the alleged debt obligation.

their purpose for redacting the numbers on their submitted documents is to confuse and hide the facts concerning this alleged debt obligation.

except for my name appearing in the middle of this stuff, there is absolutely no way to verify any of it!

more important is the sworn affidavit that accompanies the business record, paragraph 4.

"These records are kept by American Home Mortgage Servicing Inc. in the regular course of business, and it was the regular course of business of American Home Mortgage Servicing Inc. for an employee or representative of American Home Mortgage Servicing Inc., with knowledge of the act, event, condition, opinion, or diagnosis that was recorded, to make this record or to transmit the information to be included in this record. The record was made at or near the time or reasonably after the act, event, condition, opinion, or diagnosis that was recorded. The records attached to this affidavit are the original or exact duplicates of the original."

the time period referred to is important to note as the data in these records have dates that go back a full two years before American Home Mortgage Servicing Inc. existed.

According to American Home Mortgage Servicing Inc. internet web site (www.ahmsi3.com/), American Home Mortgage Servicing Inc. was Established in April 2008.

this business record affidavit is a "make it up as we go" creation of american home mortgage servicing inc., and american home mortgage servicing inc. does not have owner, holder or holder in due course rights.

they have created a new loan number in an attempt to confuse and hide facts concerning the alleged debt obligation.

they have not brought the originals as required by law and regulations.

they have ignored my repeated requests to view the original note.

texas civil rules of procedure

RULE 45 DEFINITION AND SYSTEM -----

When a copy of the signed original is tendered for filing, the party or his attorney filing such copy is required to maintain the signed original for inspection by the court or any party incident to the suit, should a question be raised as to its authenticity.

and i think i'm raising a question here as to the authenticity of everything they've got.

texas civil rules of procedure

RULE 45 DEFINITION AND SYSTEM -----

All pleadings shall be construed so as to do substantial justice.

where's the justice in this?

texas civil rules of procedure

RULE 76. MAY INSPECT PAPERS-----

Each attorney at law practicing in any court shall be allowed at all reasonable times to inspect the papers and records relating to any suit or other matter in which he may be interested.

how more reasonable a time than right now?

The Texas Business and Commerce Code Sec. 3.501 (b) (2) (A) and (B)

"Presentment" requires exhibition of the instrument for the purpose of enforcement ... or produce the note.

but wait, they don't have standing anyway!

the texas constitution article 16 section 50 is the law that the plaintiffs are citing to bring me before you today.

the plaintiffs cite specifically "applicant seeks a court order as required by tex. const. art. XVI § 50(a)(6)(D) ... to allow it to sell at public auction ...".

[[- "THE TEXAS CONSTITUTION ARTICLE 16." - "GENERAL PROVISIONS" - "Sec. 50. HOMESTEAD; PROTECTION FROM FORCED SALE; MORTGAGES, TRUST DEEDS, AND LIENS." -- " (a) The homestead of a

family, or of a single adult person, shall be, and is hereby protected from forced sale, for the payment of all debts except for:" -- "(6) an extension of credit that:" -- "(D) is secured by a lien that may be foreclosed upon only by a court order;" -]]

so it is important now to point out that section 50 defines in detail the importance of following the rules being used here and describes several types of defects that might appear in the process of attempting enforcement of security liens and how to go about curing the defects.

now i am going to jump down from sub paragraph "(D)" to sub paragraph "(Q) is made on the condition that:"

and then just a little further to sub paragraph "(x)" the forfeiture clause.

there is a severe penalty for the lender's failure to comply, - "the lender or any holder of the note for the extension of credit shall forfeit all principal and interest of the extension of credit".

the examples of defects described in section 50 are relatively little errors or cheats like accounting and or over billing.

the constitution does not say anything about fraud like what is being presented here, but does give the lender a "do over" loop hole of sorts, kind of if all else fails, and admittedly interpretation and an objective point of view play an important part in understanding the true meaning, but i believe it is intended to cover any possible other type of defect including fraud.

my friends tell me that fraud is incurable.

sub paragraph

(Q) is made on the condition that:

sub paragraph

(x) except as provided by Subparagraph (xi) of this paragraph, the lender or any holder of the note for the extension of credit shall forfeit all principal and interest of the extension of credit if the lender or holder fails to comply with the lender's or holder's obligations under the extension of credit and fails to correct the failure to comply not later than the 60th day after the date the lender or holder is notified by the borrower of the lender's failure to comply by:

sub paragraph

(f) if the failure to comply cannot be cured under Subparagraphs (x)(a)-(e) of this paragraph, curing the failure to comply by a refund or credit to the owner of \$1,000 and offering the owner the right to refinance the extension of credit with the lender or holder for the remaining term of the loan at no cost to the owner on the same terms, including interest, as the original extension of credit with any modifications

necessary to comply with this section or on terms on which the owner and the lender or holder otherwise agree that comply with this section;

regardless of whether the fraud in this case can or cannot be cured, the plaintiffs have received their "failure to comply letter" (exhibit Q) and it has been more than 60 days!
